ΣΥΝΕΔΡΙΑ - CONFERENCES/WORKSHOPS

150TH ANNIVERSARY OF THE DECIPHERMENT OF CUNEIFORM AKKADIAN

The team Histoire et Archeologie de l'Orient Cunéiforme/Archeologies et Sciences de l'Antiquité (HAROC/ArScAn) of the CNRS invites you to the celebration of the 150th anniversary of the decipherment of cuneiform akkadian.

In 1857, the Royal Asiatic Society of London entrusted under seal a copy of cuneiform inscription, just discovered at Assur, to the British scholars E. Hincks, H. Rawlinson and F. Talbot, and to the French scholar J. Oppert. Their translations, read on May 25th, were close enough to prove that syllabic cuneiform had indeed been deciphered by those scholars.

Within the frame of the "Fete de la Science", from October 8th to 14th, 2007, the team HAROC/ArScAn (UMR 7041 of the CNRS, Maison Rene-Ginouves Archeologie et Ethnologie) proposes two cultural events to celebrate this anniversary.

AN EXHIBITION "Les ecritures cuneiformes et leur dechiffrement" in the hall of the Maison Rene-Ginouves, from October 8th to 12th, 2007. The main steps of the rediscovery of the Ancient Near East, as well as of the decipherment of the main cuneiform scripts (ideographic, syllabic and alphabetic) will be presented through fifteen posters.

A SERIES OF 11 LECTURES on the topic "Histoire de dechiffrements" will take place on October friday 12, from 9.30 am to 5.30 pm, at the University of Paris X, Nanterre, bat. B, conference room. The eleven lectures will deal with the rediscovery of the Ancient Near East and the decipherment, functioning and use of cuneiforms scripts, but also of Phoenician, Linear B, Maya script, and the personality of the decipherers :

UNIVERSITY OF CINCINNATI,
DEPARTMENT OF CLASSICS, MARGO
TYTUS VISITING SCHOLARS PROGRAM

The University of Cincinnati Classics Department is pleased to announce the Margo Tytus Visiting Scholars Program. Tytus Fellows, in the fields of philology, history and archaeology will ordinarily be at least 5 years beyond receipt of the Ph. D. Apart from residence in Cincinnati during term, the only obligation of Tytus Fellows is to pursue their own research. Fellowships are tenable during the regular academic year (October 1 to June 10).

There are two categories of Tytus Fellowships, long-term and short-term.

Long Term Fellows will come to Cincinnati for a minimum of one academic quarter (two and a half months) and a maximum of three during the regular academic year. They will receive a monthly stipend of \$1000 plus housing and a transportation allowance.

Short Term Fellows will come to Cincinnati for a minimum of one month and a maximum of two during the regular academic year. They will receive housing and a transportation allowance.

Both Long Term and Short Term Fellows will also receive office space and enjoy the use of the University of Cincinnati and Hebrew Union College Libraries. While at Cincinnati Tytus Fellows will be free to pursue their own research.

The University of Cincinnati Burnam Classics Library is one of the world's premier collections in the field of Classical Studies. Comprising 230,000 volumes, the library covers all aspects of the Classics: the languages and literatures, history, civilization, art, and archaeology. Of special value for scholars is both the richness of the collection and its accessibility -- almost any avenue of research in the classics can be pursued deeply and broadly under a single roof. The unusually comprehensive core collection, which is maintained by three professional classicist librarians, is augmented by several special collections such as 15,000 nineteenth century German Programmschriften, extensive holdings in Palaeography, Byzantine and Modern Greek Studies. At neighboring Hebrew Union College, the Klau Library, with holdings in excess of 450,000 volumes, is rich in Judaica and Near Eastern Studies.

A description of the Tytus Program is available online at http://classics.uc.edu/resources/tytus_scholars_program.html. There is an online application at <http://classics.uc.edu/resources/tytusap.lasso>. Questions can be directed to secretary@classics.uc.edu.

PEUTINGERIAN MAP

Dear all,

The Peutingerian Map, a copy of copies of Roman originals, is probably the oldest roadmap in the world.

With the permission of the Austrian National Library, I am presenting an on-line real-size zoomable version of it.

Several place names have been transcribed and positioned on a b/w version to make easier their locating and the areas covered by the 11 scrolls are shown on a modern map too. I hope these pages will be useful:
